Portable Conductivity Meter

Portable Conductivity Meter with automatic calibration, automatic temperature compensation, data storage, function set-up, automatic power-off and low voltage display. It can also switch between conductivity, Total Dissolved Solids (TDS), salinity and resistivity.
Multinomial calculation for TDS and salinity

Includes:

Conductivity Meter

Plastic conductivity electrode

50ml 1,413 µS/cm conductivity standard solution

Replacement AA Batteries

ascott
Corrosion Test Chambers

Testing climate resistance to the limit

Key Features

Measuring range: $0 \sim 2 \times 105\ \mu S / cm$

Resolution: $0.01/0.1/1\mu S/cm$:$0.01/0.1\ mS/cm$

Accuracy: Meter: $\pm1.0\%$ FS Overall: $\pm1.5\%$ FS

Temp. compensation range: $(0 \sim 50)\ °C$ (Automatic)

Data storage: 200 groups (Series number; measuring value measuring unit and temperature)

Power: Two AA batteries (1.5V x2)

Dimensions: 250×210×50mm (L×W×H)

Weight: 1.6kg

Product Code: T01-60853

Accessories

Plastic Conductivity Electrode-Product Code: T01-60854

Glass Conductivity Electrode-Product Code: T01-60856

ascott
Corrosion Test Chambers

Testing climate resistance **to the limit**
