

## Table Conductivity Meter

Table mounted conductivity meter with large back lit LCD screen which displays conductivity temperature values, with manual or automatic temperature compensation. It has four types of electrodes for conduction cell constant: 0.01,0.1,1.0 and 10.0cm<sup>-1</sup>.

### Key Features

Conductivity Range: 0.001-2×10<sup>5</sup>μS/cm (1000MΩ - 5 Ω<sup>-2</sup>)

Display: 3 +1/2 LCD

Resolution: 0.05%

Accuracy: ± 1%

Stability: ±0.67% Full Scale + 1 bit/24h

Temperature Compensation Range: 10-40 °C (standard temperature: 25°C)

Tested sample Temperature Range: 50-60 °C

Table mounted conductivity meter - Product Code: T01-60851

Plastic conductivity electrode - Product Code: T01-60852
