

Karl Fischer Titration Tester (Advanced)

For accurate analysis of water content, using the Karl Fischer method.

- Full Colour LCD screen
- Dynamic online guidance, intuitive windows-style operation
- All results shown on one screen, inc. water content, water percentage, ppm content, reagent consumption
- Automatic subtraction of floating water, automatic tracking of environment floating water.
- Stepless-speed mixing PWM
- Sealed system, preventing escaping of poisonous gas. automatic reagent change, automatic discharge wastewater.
- Measure Range : 0.01%-100%
- Resolution : 0.01ml
- Indication Error : $\leq 2\%$
- Power Supply : 220V /50Hz
- Terminal Time-lapse : 10s~300s (Adjustable)
- Part Code: T01-700746
